## About the Africa Academy of Management (AFAM)

**AFAM** is a not-for-profit association of academics and practitioners interested in advancing research and education about management in Africa. Its membership is comprised of academics, students and practitioners in all regions of Africa and the diaspora. In 2016, AFAM became an affiliate of the Academy of Management. **AFAM** believes Management knowledge can make a significant contribution to productivity and prosperity of Africa. Yet, there is a dearth of knowledge about management in Africa and several studies have identified the inadequate state of management research and scholarship about Africa relative to other regions of the world. Our mission is to help close this gap by promoting research and education about management and organizations in Africa. Our initiatives focus on building and strengthening research capacity and education about management in Africa. This includes the mentoring of doctoral students, guiding and developing junior faculty, building collaborative networks among scholars, and advocating interest and focus on Africa internationally. Since its founding, **AFAM** has held three successful international conferences in San Antonio, TX, USA in 2011, at the University of Botswana in 2014, and at Strathmore Business School in Nairobi, Kenya in 2016. The fourth biennial conference is underway for 2018 at the School of Commerce, Addis Ababa University in Ethiopia. AFAM launched the **Africa Journal of Management (AJOM)** with the inaugural issue

was published in 2015 by Taylor & Francis. **For more information about AFAM see:**
